HEALTH GUIDELINES

Your child's health is very important to us, and we have therefore set up some guidelines to make sure that everyone stays healthy & happy.

- Please stay home from class if you or your child are exhibiting any symptoms of illness at all (including contagious infections such as pink eye) and for several days after symptoms abate or once you have clearance from your doctor to return to class.
- Please observe the very elementary hygiene rules : wash hands after contact with mouths, ears and noses and after diapering and before meeting with the other families.
